- Prevents oxidation and corrosion.
- Overnight & weekend protection.
- No start-up cleaning.

- Prevents oxidation and corrosion.
- Protection for several weeks.
- Built-in acid neutralizer.

- Prevents oxidation and corrosion.
- Protects molds 12 months.
- Protects steel molds and equipment.

- Prevents oxidation and corrosion.
- Protects molds 12 months.
- Built-in acid neutralizer.
- Tracing dye.

A612 Short Term Rust Preventive

A612 is a short term coating used as a mold protectant against rust and oxidation for overnight and weekend protection.

A612 seals out dampness and prevents rust and corrosion by leaving a thin film of rust preventive.

A612 leaves a thin film of rust preventive that works off during start-up and requires no cleaning.

A612 has received NSF® approval for use in food-grade molding.

10 oz. (283 g.) aerosol
Item No. A612
12 per case

A592 Medium Term Rust Preventive (ZIP ME-2410NS)

A592 is a medium term coating used as a mold protectant against rust and oxidation for several weeks protection.

A592 seals out dampness and prevents rust and corrosion by leaving a microfilm coating of rust preventive.

A592 has a built-in acid neutralizer that retards the effects of mild acids, alkalies, and fingerprints.

A592 is ideal for molds needing protection for several weeks between use.

A592 is a penetrating lubricant that loosens frozen parts due to rust and corrosion. It also removes light rust buildup.

12 oz. (341 g.) aerosol
Item No. A592
12 per case

A677 Long Term Rust Preventive

A677 is a long term coating used as a mold protectant against rust and oxidation for 12 plus months protection.

A677 seals out dampness and prevents rust and corrosion by leaving a heavy duty film of rust preventive.

A677 prevents rust and corrosion from ruining exposed steel and stored metals for extended time periods.

A677 allows you to ship or store parts, molds, tooling, or machinery without damage from rust, corrosion, or oxidation.

A677 has received NSF® approval for use in food-grade molding.

10 oz. (283 g.) aerosol
Item No. A592
12 per case

A590 Long Term Rust Preventive (ZIP ME-5050NS)

A590 is a long term coating used as a mold protectant against rust and oxidation for 12 plus months protection.

A590 prevents rust and corrosion from ruining exposed steel and stored metals for extended time periods.

A590 has a built-in acid neutralizer that retards the effects of mild acids, alkalies, and fingerprints.

A590 has a built-in tracing dye to save time by allowing you to visually check coverage.

A590 adheres to metal surfaces such as molds, tooling and slides without running.

12 oz. (341 g.) aerosol
Item No. A590
12 per case
